21/22 Playoff

23/24 Playoff

The diagram illustrates a hierarchical tree structure. On the left, there are four vertical stacks of nodes, each starting with a 'BYE' label. The first stack contains 'M1' and 'BYE'. The second stack contains 'M2' and 'BYE'. The third stack contains 'M3' and 'BYE'. The fourth stack contains 'M4' and 'BYE'. Lines from the 'BYE' nodes of the first and second stacks converge into a single line labeled 'M5'. Similarly, lines from the 'BYE' nodes of the third and fourth stacks converge into a single line labeled 'M6'. These two lines, 'M5' and 'M6', then converge into a single line labeled 'M7'. Finally, a single line extends from 'M7' to the right edge of the diagram.

The diagram illustrates a 4-bit bus system with four signals: O1, O2, O3, and O4. O1 and O2 are active-low signals, while O3 and O4 are active-high signals. The signals are shown as rectangular pulses. O1 and O2 are asserted (go low) simultaneously, followed by O3 and O4 being asserted (go high). This sequence of operations is repeated twice. The signals are labeled with their respective bit positions: O1, O2, O3, and O4.
